# ROYAL FLUSH COIN

## WHITEPAPER

Versão 1.7 - Poker On-line And BetCrypto To The Next Level

# Introduction

## The inevitable migration of the financial system to digital currency platforms.

The world has been undergoing intense financial transformation since 2009, with the launch of the then-underestimated BITCOIN. More conservative experts warned at the time that investing in a DIGITAL asset that was not regulated by any financial agency could be the beginning of a headache for investors at the time. But today, with the technological transformations experienced in this relatively short period of time, it is common sense that BITCOIN brought the innovation of Cryptocurrencies to our daily lives. Large financial institutions already have large reserves of BITCOIN in their investment portfolio, the regulatory institutions of the world money trade, in turn, will understand that a digital asset could not be fought due to the numerous improvements and facilities they brought. The world has been undergoing intense financial transformation since 2009, with the launch of the then-underestimated BITCOIN.

More conservative experts warned at the time that investing in a DIGITAL asset that was not regulated by any financial agency could be the beginning of a headache for investors at the time. But today, with the technological changes experienced in this relatively short period of time, it is common sense that BITCOIN brought the innovation of Cryptocurrencies to our daily lives. Large financial institutions already have large reserves of BITCOIN in their investment portfolio, the regulatory institutions of the world money trade, in turn, will understand that a digital asset could not be fought due to the numerous improvements and facilities they brought.

# Conception

Taking advantage of the great and unique moment we are living in the Crypto world.

There is no doubt that the world of Cryptocurrencies is in the full ascension stage. Guided by this idea, a team of experienced investors in the stock market, together with IT system developers and members of the Associação de Bingo do Brasil, created the Royal Flush Coin project. Its primary basis is the integration of the world of Cryptocurrencies with the comprehensive online betting and gaming market. This way, allowing the user to have an asset in Crypto that will be used to guide bets linked to official games of Football, Basketball, Tennis, Boxing, Volleyball, MMA fights and eSports in general.

# Purpose

## Be a reference on BetCripto.

The objective of the Royal Flush Coin project is to consolidate itself as a Crypto Token capable of providing the Investor/Player with the opportunity to invest in an asset that, in addition to the possibility of market appreciation due to the flow of transactions, also has the option of using it to perform the most diverse types of online bets. At first, only Royal Flush Coin Tokens will be accepted in its own betting system and following its development schedule, in the future on its website in Online Casino mode, allowing the holder of the RFC Token not only to bet on sporting events, but also uses them to buy credits used in Poker, Black Jack, Roulette, Craps games within your Casino site.

# Tokenomic

Aiming at a sustainable system.

Based on successful Tokens studies, it was verified that to generate a sustainable and better usability system, the initial Tokens distribution must be done in a way to neither allow evictions nor illegal manipulations. With this in mind, a SINGLE Dev portfolio was created containing the amount of 2% of the total initial supply of the Token, and the rest will be distributed as follows:

**Dev - 02%**

**Pre Sale - 20%**

**Trade - 55%**

**Burn - 10%**

**Bank Royal Bet - 08%**

**Marketing - 05%**

# Mapping

Address of wallets for mapping.

## Contract

# Accountability

Investor Transparency.

The Royal Bet Banking wallet will be used to fund the bet payouts resulting from the Royal Flush Coin Bet system and no market sales will be carried out by this wallet. Any and all actions that are necessary to use resources from the Marketing portfolio will be taken for approval by the board and made public through our Social Media.

# Roadmap

## Initial planning and objectives.

Investors who actively participate in the world of DeFi Tokens know that several projects have emerged in recent times. Many of these projects bring unfeasible goals or even deadlines that do not match what was proposed. With this in mind, the Royal Flush Coin team brought goals that are realistic and can be delivered with the commitment of your team, setting goals and reporting every step of what will be planned/delivered.

## Stage 1

- Launch of Social Media and Website
- Commitment to marketing campaigns for wide dissemination
- Partnership with Content Creators (Poker and eSports)
- Pre sale
- PancakeSwap Launch
- Royal Bet Launch
- First Solidproof.io audit
- Logo Update on TrustWallet
- Data and Logo updated at BSCScan
- List on CMC and CG
- Supporting Promising Players in Online Poker
- Promote Online Poker Tournament

## Stage 2

- Promote Commemorative Tournament for Holders •
- Promote Tournament with funds raised aimed at charities •
- Complete audit by Certik •
- Listing in Centralized Exchange •
- Strengthen Ties with Content Creators and Poker Players •
- Monetize our channel on Twitch and Youtube with profit for repurchase •

- eSports RFC
- Face-to-face eSports Tournaments
- Royal Flush Casino Launch

**Stage 1 - Q3 2021**

**Stage 2 - Q1 2022**

**Stage 3 - Q2 2022**

**Stage 4 - Q4 2022**

# Royal Bet

The best of BetCrypto at your fingertips.

Available after the pre-sale has ended, the Royal Flush Coin Bet Online betting platform is a system that only accepts the Token RFC as a payment method. With an environment of easy usability and compatibility, including an application for mobile devices, the user will be able to choose between several sporting events to place their bets. At first, to avoid congestion by bots and bring the reception of personalized service, bets will be validated through a specific contact from Telegram or Whatsapp, where we will have online collaborators who received the request and will be able to validate the transactions through the Hash (bcscaan ). The destination wallet for sending these transactions was called Banca Royal Bet and its initial Supply will be 10%. Thinking about the valuation for our Holders, when for any reason the portfolio has a supply above 15%, all the excess will be allocated to the Burn portfolio. Providing greater value to the Token.

# Royal Casino

Betting and Online Games at your disposal.

This site will be developed in the same way as the most renowned On-Line Casinos today, will be the final objective of the project. RFC Token holders will have at their disposal a system that will allow not only bets on sporting events but also the possibility of using their Tokens to bet on games on the site such as Poker, Black Jack, Roulette, Craps, among others. The Royal Flush Coin team has already been in contact with the most renowned developers of this type of platform and together with its legal team has raised the legal needs for the creation and implementation of a tool of this proportion. We hope that this project can undoubtedly become a reference in the niche of On-Line Casinos dedicated exclusively to the Cripto world.
